

# ENVIRONMENTAL MANAGERS BOOTCAMP

## *Basic Training for Plant Environmental Compliance Personnel*

October 6, 2010  
Seattle-Tacoma International Airport  
International Conference Room

### **TECHNICAL PROGRAM**

<b>Registration Open</b>	7:30
<b>Welcoming Remarks and Program Overview</b>	8:00 – 8:15
<b>Environmental Regulations Primer</b> A broad overview of the development and implementation of environmental laws, regulations, orders, policies, guidance documents, and enforcement actions both at the federal and state levels.	8:15 – 8:45
<b>Wastewater Discharges</b> An update to WA Ecology regulations and federal SPCC amendments, plus a case study on eliminating unintended discharges.	8:45 – 10:00
<b>Morning Break</b>	10:00 – 10:15
<b>Waste Management</b> An overview of how to manage production-based waste streams, including identification of hazardous waste and criteria for an effective emergency response program.	10:15 – 11:15
<b>CERCLA/SARA / HAZWOPER</b> A look at what happens when a site has not managed hazardous materials properly and the driving forces from EPA and OSHA to resolve employee and public exposures.	11:15 – 12:00
<b>Lunch</b>	12:00 – 1:00
<b>Air Emissions</b> An overview on identifying air emissions throughout your facility and criteria for ensuring your permitting and compliance programs are adequate. An introduction on greenhouse gases and the special reporting components for them under the federal and state rules.	1:00 – 2:30
<b>Hazardous Materials</b> An overview of managing all of your on-site hazardous materials including criteria from DOT, OSHA and EPA.	2:30 – 3:30
<b>Afternoon Break</b>	3:30 – 3:45
<b>Environmental Management Basics</b> An overview of what is needed to develop and implement an effective environmental management program. This will include steps to develop an EMS, the business case, and linkages to ISO 14000 as well as EPA's Design for Environmental programs.	3:45 – 4:30
<b>Q/A and Closing Remarks</b>	4:30 – 5:00
