PNWIS HISTORY AND AWARDS PROGRAM

Welcome to the 51st annual meeting of the Pacific Northwest International Section (PNWIS) of the Air and Waste Management Association (A&WMA).

PNWIS, a professional organization, has a membership of technical and professional people from industry, academia, government, manufacturers, consulting and testing firms, and the public sector. The Awards Program attempts to acknowledge those who have made a significant contribution in the area of air and waste management.

You, the members of PNWIS, make this Awards Program effective by submitting your nominations and suggestions to the Awards Committee. Your participation is appreciated.

The Awards Committee is continuing to update records of all previous recipients of PNWIS awards. Your assistance at filling in the blanks would be greatly appreciated. If you have any of the missing historical information please send it to Roylene Cunningham, PNWIS Awards Committee, EPA Region 10, 1200 Sixth Avenue, Suite 900 (OCE-127), Seattle, Washington 98101, or email to cunningham.roylene@epa.gov; or Melissa McAfee, PNWIS Awards Committee Chair, Puget Sound Clean Air Agency, 1904-3rd Ave, Ste 105, Seattle, Washington 98101, or email to melissam@pscleanair.org.

PNWIS was chartered by A&WMA on March 19, 1962 and included Oregon, Washington, Idaho, Montana, and British Columbia. Prior to 1962 the four states were part of the West Coast Section for a number of years. Alaska and Alberta were invited to attend the PNWIS annual meeting in November of 1969. In 1970 they joined PNWIS. Saskatchewan and Manitoba were admitted to PNWIS in the 1976-77 year. In 1985-86 the Canadian Prairie and Northern Section of A&WMA was formed and Alberta, Saskatchewan, Manitoba, and the Northern Territory joined CPANS. The Yukon Territory came to PNWIS when CPANS was formed.

Excellence in Presentation Award

This award was established in 1975 as the Happy Looker Award to encourage improved visual presentation of papers at PNWIS annual meetings. The scope was later changed to include verbal presentation and content. In 1988 the name was changed to the Excellence in Presentation Award to better represent the purpose of the award. This award is presented for the best presentation of a paper or poster at the annual meeting.

Willenberg-Hansen Chapter Recognition Program

This program was created in 2001 to give the Section a way to recognize the efforts and programs of our 8 Chapters and 2 Student Chapters. The program is non-competitive and non-monetary with benchmarks that are easy to achieve and easy to evaluate. The program's purpose is to recognize and motivate volunteer efforts and encourage membership in the Air & Waste Management Association. The points system emphasizes membership and education efforts and is tracked by evaluating the annual reports that each Chapter files as part of their charter with A&WMA.

The 3 awards levels are the Moose, which requires 6 points, the Eagle, which requires 8 points, and the Moby, which requires 10 points.

Bent Black Banana Award

This award is presented to some person for some reason! The award is on the “lighter side” and is generally presented for some unusual contribution at the annual meeting. The PNWIS Awards Committee makes selection of the recipient.

This award was established in 1968 at the annual meeting in Vancouver, B.C. President Peter Hildebrandt presented Brad Drowley with a sad-looking banana as a prize for traveling the greatest distance to the convention. Between then and the next convention in Portland, Oregon, Brad transformed the banana into an attractive plaque and it was annually presented to the person traveling the greatest distance to the annual meeting.

In 1983 it was decided to change the purpose of the award so more members of PNWIS would be eligible. Since 1983, the BBB Award is presented to someone who does something very funny or unusual at the annual meeting.

- 2011 – Greg Lipnickey for the bath robe incident in the hotel bar
- 2010 – Rachel Buckbee for coming up with a new app on her iPhone for tracking BBB nominees

Dornbush-Freeburn-Marcus Environmental Challenge Program

At the PNWIS 2002 conference, the Environmental Challenge competition was introduced to give NW university students an opportunity to work on a real-life environmental problem, network with other students and professionals at annual conferences, and to compete for prizes. The Mini-Challenge was staged at the annual conferences during which the teams were given three days to work on solutions and develop presentations. Funding for the cash prizes have come from the PNWIS budget and sponsors, but will soon be generated by the Environmental Challenge (EC) fund. This fund is approaching \$100,000, at which point the proceeds from the fund will be used for the annual competition. Beginning with the PNWIS 2004 Annual Conference, the competition started to evolve into the Full Challenge. Student teams form and work on the EC problem for a month, submit summary proposals on the first day of the conference, and then interface with role-playing characters, incorporate new information into their problem solutions, and give presentations on the final day of the conference. Student teams will be judged and awarded prizes based on their understanding of the environmental issues pertinent to the EC problem, and the vision, logic, team process, conceptualization, and creativity of solutions. This program was later named after its' champions, Dave Dornbush, Scott Freeburn, and Kim Marcus.
